Building Minds that Make It

FAME (Finger Lakes Advanced Manufacturers' Enterprise), an industry driven initiative of the Finger Lakes Workforce Investment Board, is committed to the region's advanced manufacturing community by building world-class workforce talent that have the skills, inspiration and motivation to advance the industry. Together we are—Building Minds that Make It! www.nyfame.org

Finger Lakes Workforce Investment Board (FLWIB) - improving the economic well being of job seekers and employers in the region by aligning human potential with opportunities in the workplace.

Finger Lakes Community College is a State University of New York two-year higher education institution. FLCC's 250-acre park-like campus is located in the heart of the Finger Lakes in Canandaigua, N.Y. The College offers more than 54 degree and certificate programs, including emerging technologies, environmental conservation, ornamental horticulture, viticulture and wine, music recording technology, game program and design, and tourism management. FLCC's current enrollment is approximately 6,500.

www.flcc.edu

Genesee Community College

Genesee Community College is located just off the NYS Thruway in the rolling countryside outside Batavia, NY. The College offers over 60 degree or certificate programs in many emerging industries such as Polysomnographic Technology (the study of sleep disorders), Veterinary Technology, Entrepreneurship, Biotechnology, and Environmental Studies. It was founded in 1966 and now has approximately 7,200 students. Genesee's BEST (Business Employee Skills Training) Center is a local provider of training, workshops, and small business consulting for the GLOW region. www.genesee.edu

As the primary educator of the local workforce, Monroe Community College builds partnerships at every point in the pipeline to meet the area's educational and workforce development needs. Robust, innovative collaborations exist with school districts and four-year institutions, workforce development boards, industries, businesses and government. Over 25 percent of all area high school graduates choose MCC to begin their college education, and the majority of MCC career and certificate program graduates remain in the Greater Rochester area. www.monroecc.edu

The CTE Technical Assistance Center operates under a State Contract to assist NYSED in carrying out its mission of improving the quality, access, and delivery of CTE through research-based methods and strategies resulting in broader CTE opportunities for all students. The CTE Center increases the capacity of SED to Serve, Support, and Expand CTE across the state, and serves BOCES and LEA programs. www.nyctecenter.org

With BOCES as a catalyst, school districts develop shared programs that serve children from all districts regardless of enrollment, income or size of tax base. By focusing on collaboration and cost containment, BOCES help to relieve some of the financial burdens increasingly placed on local taxpayers. The stream of shared services aid has enabled districts to avoid at least some of the growth in property taxes that would have otherwise been required. The BOCES mission is: Preparing diverse populations for roles in the global economy; Providing cost-effective shared services to school districts; Initiating collaboration to close gaps in student achievement. www.boces.org

Agenda

**COLLEGE
AND
CAREER
READY**

3:30 – 4:00pm	Registration and networking
4:00pm	Welcome, Mike Mandina <i>FAME, Chair; President, Optimax Systems Inc.</i>

4:20pm	Keynote speaker, Dr. Willard R. Daggett “College AND Career Ready - How New Requirements in Schools Will Impact YOUR Future Workforce”
5:05pm	Meeting the CTE challenge, Dan White <i>District Superintendent, Monroe 1 BOCES</i>
5:10pm	Group discussions
5:30pm	Results and goals
5:50pm	Presentation of leadership award/ Closing remarks
6:00 – 6:30pm	Networking

DR. WILLARD R. DAGGETT Founder of the International Center for Leadership in Education

Dr. Daggett is recognized worldwide for his proven ability to move preK-12 education systems towards more rigorous and relevant skills and knowledge for all students. The skills and knowledge needed for success in today's technology-

based manufacturing sector are different from those needed in the past, and Dr. Daggett will describe how changes in NYS common core standards and assessments will impact our schools and better prepare the workforce of the future—and how manufacturers can assist school leaders in meeting these changes. Learn more about Mr. Daggett at [**www.leadered.com**](http://www.leadered.com).

Many Thanks
