A Gateway to Innovation

KIDS CAMP

Open to students entering grades 6, 7 & 8

Monday, July 8 – Friday, July 12, 2013 • 9am – 3pm

GCC Batavia Campus

Limited Space: Enroll Today!

Genesee Community College

Successful students master the ability to look at problems from multiple angles and understand there may be a number of solutions to any particular problem. Invention Convention is designed to foster the development of creative problem solving and critical thinking skills, by providing students with the opportunity to develop and actually transform their innovative idea into an invention.

All students should be given opportunities to solve problems, think creatively, experiment, build and create. Unfortunately, it is not possible for many schools to provide this experience to our children in the normal day-to-day curriculum. Invention Convention program provides students an outlet for flexing their creative thinking, critical thinking and problem solving muscles, and helps them develop self confidence through the presentation of new ideas, with a goal of making the world a better place.

Enroll your child in a program that is truly a celebration of imagination, creativity, and ingenuity. Space is limited. Call today!

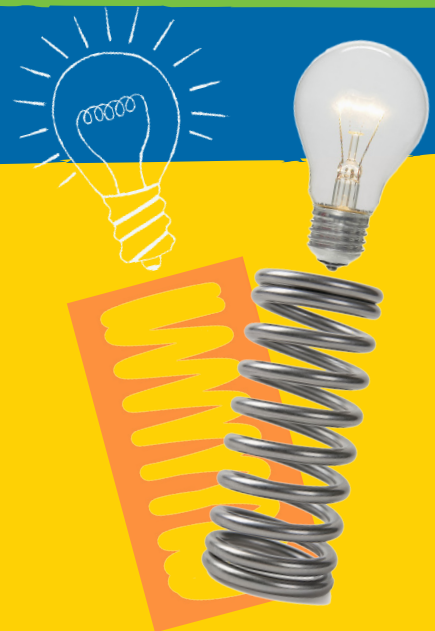

**Cost: \$150/student
Includes snacks and materials**
